

Can Christianity Survive Anti-Christian Control of the Media and the Money?

BY DR. A. J. APP

THE UNIQUE ASPECT of the 1972 election campaign was that the candidates of both major parties kept accusing the other of not doing enough for Israel. The chief reason, according to *Time*, why politicians are willing even to sacrifice American interests to butter up Israel is that Jews "are predominantly represented in the press and the academic profession."

It may be of value and interest to supply some figures as to the influence of Jews in the United States and to reflect whether America can retain or revive its Christian way of life when Jews control the media, the banks, and the professions. Most of the figures are taken, with permission, from Wilmot Robertson's *The Dispossessed Majority*.

Anti-Christian Activity

According to the *N. Y. Times* (July 17, 1966) the American Jewish Congress bitterly condemned the U.S. Post Office for issuing a stamp which contained a reproduction of Hans Memling's great Renaissance painting, "Madonna and Child."

The Wall Street Journal (July 6, 1962) reported that the *Jewish Advocate* in an editorial agreed with the amendment prohibiting prayer and suggested "it might logically be extended to bar the traditional

display at Christmas of the Nativity scene and other religious symbols at any public gathering or party."

On August 22, 1972, the Massachusetts State Board of Education "enacted anti-religious-observance guidelines," which prohibit "religious service of any kind. . . . The display of religious objects or symbols. . . . The presentation of religious music." In place of Christ at Christmas, there should be substituted "gift-giving, Santa Claus, and Rudolph the Red-Nosed Reindeer." Rabbi Samuel J. Fox, president of the Massachusetts Council of Rabbis, said, ". . . we should like them (the guidelines) adopted state wide. But Christian protesters asked, "why simple Christian observance can't be allowed in the schools . . . once Christmas has been outlawed, it's very simple to ban all other holidays. . . ."

(See "School Board Discourages Christmas Observances," *The Wanderer*, Dec. 14, 1972. This news reveals Rabbinical power at high tide. In short, *Rabbis want Christ out of Christmas, but when Christ is out of Christmas Christianity is strangled in the country. Must we—may we—tolerate this?*)

"Even as late as 1947 it was estimated that 39.3 percent of American Communist Party activists were Jewish," 13 times more than the Jewish proportion of the popula-

tion; . . . the proportion of Jews in the Party in the 1920s and 1930s was staggering" (Robertson, p. 348).

As of 1969, "American Jews composed 'at least half of the active protestors among the New Left,' and 'the nonpopulist brand of radicalism is noisy, intellectual, ideological, and primarily Jewish.'" (See James Yaffe, *The American Jews*, p. 285, and p. 349).

The Smear-tactic of Denouncing Criticism as Anti-Semitic

" . . . any candid and effective writing about the Jewish problem. . . . Any critical discussion of Jewish wealth—or for that matter any critical discussion of an aspect of Jewish power—immediately expose the author or speaker to charges of anti-Semitism" (Robertson, p. 179).

" . . . anti-Semitism is the great heresy of modern times" so that "a person so accused is immediately subjected to such doses of social ostracism and economic attrition that any normal private life or successful public career is closed to him" (Ibid., p. 179).

Many Jewish intellectuals who believe "passionately in the rights of free speech and peaceful assembly for all," rejoice "when permits are refused for (alleged) anti-Semitic meetings and rocks crack against the skulls of (alleged) anti-Semitic speakers" (Ibid. p. 180).

Over-representation in the Professions

In New York City "already half of the doctors are Jewish." Of 14,000 applications a year to medical school "5000 to 7000 (are) from Jews" (Ibid., p. 178).

Of the 313,000 lawyers in the country, "Nationwide 20 percent of all lawyers are Jewish—in New York City, 60 percent. In the top law schools, Jews account now for almost a third of the entering class. At Harvard . . . almost half the faculty is Jewish . . . 25 percent of the nation's law professors are Harvard alumni" (Ibid., p. 380).

" . . . in the realm of ideas Jews are just as firmly embedded as elsewhere," namely, leading economists, historians and political scientists, sociologists, jurists, anthropologists, psychiatrists, philosophers, the physical sciences (Ibid., p. 170).

Monopoly of the Dramatic Media

Jews have "commanding positions . . . in television, radio and motion picture industries" e.g., Columbia and National, and American Broadcasting Companies, and the Radio Corporation (Robertson, p. 168).

In "television programming, most of the dramatic shows, 'specials' and documentaries are the brain children of Jewish production companies like Screen Gems and Talent Associates" (Ibid, p. 168).

In Broadway, "there has been an almost fantastic over-representation of Jews" (Ibid., p. 169).

"Hollywood from its inception has been overwhelmingly Jewish . . . the new breed is also largely Jewish" (Ibid., p. 168).

Control of the News Media

"Jewish over-representation is overwhelming... in the opinion-forming sanctuaries of American society" (Robertson, p. 168).

"The controlling interest" in the three newspapers "read and taken to heart by the powers that be," "the *New York Times*, the *Washington Post*, and the *St. Louis Post Dispatch*" is held by Jews" (Ibid.).

"One single editorial in the *New York Times* carries more weight than the dispatches of twenty ambassadors" (Robertson, p. 443).

Newsweek, the *New York Post*, the *Philadelphia Inquirer*, the *San Francisco Chronicle* and many other such media are controlled or owned by Jews (Ibid., p. 165).

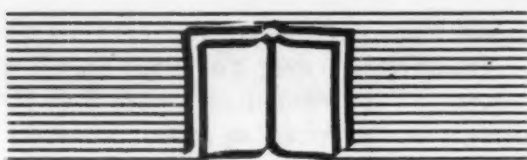

"The list of magazines controlled by Jews is voluminous and includes *American Home*, *Commentary*, *Esquire*, *Ladies Home Journal*, *McCall's*, *Nation*, *New York Review of Books*, the *New Yorker*, and *U.S. News* (Ibid., pp. 165-66—of these *U.S. News* is fair enough to seem Christian).

"... practically all important American publications vie with each other in procuring the services of Jewish reporters," such as in our time, Walter Lippman, Max Lerner, Walter Winchell, Ann Landers, "Dear Abby," Herblock, Al Capp, etc., (Ibid., p. 166). *We ask, can the Christian American way of life be maintained or revived when such reporters dominate the media?*

Jews Dominate Book Publishing

"... the largest wholesale book firms... are Jewish controlled"; "... the leading distributor of paperbacks, magazines and newspapers to news stands and drug stores is the near monopoly of Henry Garfinkle," who is also "A close associate of Mafia figures" (Robertson, p. 167).

"... practically all leading publishers vigorously promote works of Jewish authors and employ Jews in high editorial positions," for example, Jeremiah Kaplan is currently president of Macmillan; Knopf and Random House, Holt, Rinehart and Winston, Liveright, Viking, Simon and

Schuster are Jewish firms (Robertson, p. 167).

As a result of media image-publishing, "when a Jew and a non-Jew have made similar accomplishments in a similar line of work, the former is likely to receive more attention and recognition than the latter," e.g., Physicist Max Planck was hardly known but Albert Einstein was publicised into "the object of the American public's warmest esteem" (Robertson, p. 170).

Jew Predominate in Education

"Half of all the teachers in the public schools in New York are Jewish and the majority of directors and principals" (See "Die Juden in New York," *Frankfurter Allgemeine Ztg*, June 24, 1972).

Harvard is dominated by Jews but also "15 to 20 percent of the faculty of other American Universities are Jewish" (Robertson, p. 288). NOTE, the founder of Harvard said: "... the main end of his (a student's) life and studies is, to know God and Jesus Christ which is eternal life..." *Will a Jewish faculty so recognize Christ?*

Over-represented in the Government

"... considering that Jews are less than 3 percent of the American population, the number of Jews in the inner circles of government is clearly out of proportion" (Robertson, p. 16).

President Nixon's "chief foreign policy advisor, Henry Kissinger, was born in Germany of Jewish parents"; the "Chairman of the Federal Reserve Board," Arthur J. Burns, was "born in Austria of Jewish parents" (Richardson, p. 163).

Murray Chotiner, Jewish, may be "regarded as the key political figure in the White House" (Richardson, p. 163).

"... half the membership of the Peace Corps, perhaps the most liberal agency of the U.S. government is Jewish" (James Yaffe, *The American Jews*, pp. 245-6).

Jewish Power in Banking

Though they were (in 1955) only 2.9 percent of the population, "more than 20 percent of the American millionaires were Jewish, and Jews accounted for 10 percent of the personal income of all Americans" (Robertson, p. 172).

Year by year, the "great Jewish banking houses and investment companies . . . Goldman, Sachs & Co., Kuhn, Loeb & Co., Lazard Freres, Lehman Brothers, Lehman Corporation, and others are pushing their financial control deeper and deeper into the nation's economy" (Robertson, p. 173). NOTE: It is these financial institutions that played a tragic part in promoting both world wars and instigating unjust and vindictive peace treaties afterwards!

The two largest distillers, "many of the largest textile companies, shoe firms, and the two leading tobacco companies" are Jewish controlled (Robertson, p. 174).

The clothing industry, "most of the nation's department and furniture stores and cosmetic firms are Jewish controlled" (Robertson, p. 174).

"Jewelry and precious stones are practically a Jewish monopoly" (Robertson, p. 174).

"Of 107 Tax-exempt foundations," for example in Maryland, whose population is only three percent Jewish, over half, namely "fifty-seven were Jewish, almost all with specifically Jewish objectives" (Robertson, p. 368).

Concluding Comment

These sample statistics revealing Jewish control and power explain why our politicians—for example in the election of 1972—talk more as if they represented Israel than the U.S.

But these statistics should also induce American religious, educational, and industrial leaders to reflect whether America can long remain the Christian country its founders envisioned—and which must remain the prime objective of our Christian people, for Christ is the way, the truth and the life, if our press, our theaters, our journalists and teachers, our top level political advisers, and our most powerful financial

institutions are predominantly Jewish! It would seem necessary that either Jews will Christianize, or Christians will re-assert their influence!

One should pray for Jews to Christianize. They were once the Chosen People; but *Christians are the Chosen People now*. Judaism is no longer a worship of Jehovah, whose Son it rejects, but of Satan. For 2000 years Christian theologians, scholars, and writers have created Western civilization, the only real civilization there is. Virtually all learned men these 2000 years have accepted the central truth of this civilization: that Christ born in the year one was the Messiah, was crucified, and rose again. For Jews, in the face of this virtual consensus of learned persons, to reject this central truth—to reject Christ and in effect to hate him even unto trying to get him out of Christmas—is not noble, it is arrogant and impudent persistence in error! Jews scorn the scholars who for a short time rejected Galileo and his theory, yet they have for 2000 years rejected the central truth of civilization, namely, that Christ is the messiah promised in their own Old Testament. To persist in this gross fallacy is no more noble than a savage's persisting in his cannibalism.

Therefore Jews have been a source of trouble and tragedy wherever they tried to settle. For they have fed like a cancer on the body of Christianity. Even when not breaking the law, they overreach Christians by dealing merely so as to avoid the clutches of the law. For Christians, the law is the minimum, for Jews the norm. It is high time they reformed their arrogant denial of Christ and accepted him meekly as the promised Messiah, foretold in the Old Testament, and realized in the New.
